

Protecting you from fraud, waste and abuse

Abuse costs an additional \$41,000 in medical claims for every \$1,000 in prescription claims. Our industry-leading program provides an ongoing proactive review of all plan claims to help clients control costs and curtail inappropriate drug use.

1 ANALYSIS

Identifies outliers, patterns and potential abuse using advanced analytics and data mining

2 INVESTIGATION

Completes full investigation of identified outliers, including prescription verification and prescriber outreach

3 CONSULTATION

Reviews actionable investigative reports and collaborates with plan sponsors regarding intervention opportunities

The significant increase in cases and avoidance over 2018 results was driven by the 2019 implementation of a provider focused investigations team.

In 2019, more than 2,478 substantiated cases were presented to plans, resulting in avoidance of up to **\$160.8M in related prescription costs & \$6.59B in related medical costs.**
